

# TOYOHASHI JAPANESE LANGUAGE SCHOOL

## ADMISSIONS GUIDE

# GREETINGS

**We aim to support international students in achieving their self-fulfillment while promoting the development of our respective countries and the realization of a symbiotic society.**

Our school has 152 hopeful international students who came to Japan in search of the “Japanese Dream” (as of April 2025). Their nationalities are Nepal, Sri Lanka, Bangladesh, and Myanmar. Students learn not only Japanese language, but also history, culture, values, traditions, and the spirit underlying world-class manufacturing and service. We face our students every day with the mindset that “the dreams of international students are the dreams of our teachers” as they leave their distant home countries and eagerly learn the Japanese language. Our passionate Japanese language instructors work hard every day to improve practical Japanese language skills for our students. In the warm and hospitable city of Toyohashi, we aim to be an attractive school that serves as a bridge between students and their home countries, and we want to contribute to the realization of a society in harmony with the world.

## CHARACTERISTICS

### 1. Japanese language proficiency development

Classes are divided into Elementary, Intermediate and Advanced levels.

Students can comprehensively learn all four language skills: speaking, listening, reading, and writing. We strive to teach students natural Japanese and improve their communication skills not only in a classroom but also by having them experience various things outside of school.

### 2. Excellent Teachers

Our teachers are very hard-working and sincere. They will fully support each student to develop their Japanese skills. Our upbeat and energetic teachers make learning fun and easy to understand.

### 3. Support for Students' Career

We give detailed guidance for students who would like to go to university, technical school or graduate school. For example, students may attend a meeting for further education to find schools that they would like to go to. We will also hold personal counseling and help students prepare for University entrance exams for International Students (Japanese) or Japanese Language Proficiency Test.

★ Placement record of higher education ★ Sophia University (Graduate School), Nanzan University, Shiseikan University, Kobe International University, Other junior colleges, vocational schools, etc.

### 4. Dormitories provided

We offer a designated dormitory for students to study at ease.
